

ACCOUNTS PAYABLE

The BIS® Accounts Payable module automatically updates the Accounts Payable Journal, General Ledger, Financial Statements, Vendor Ledger, Vendor File, Job Cost, Subcontract File, Inventory File, Purchase Orders File, 1099 File, and the Vendor History File. The books are always current as of the most recent transaction entered.

Features:

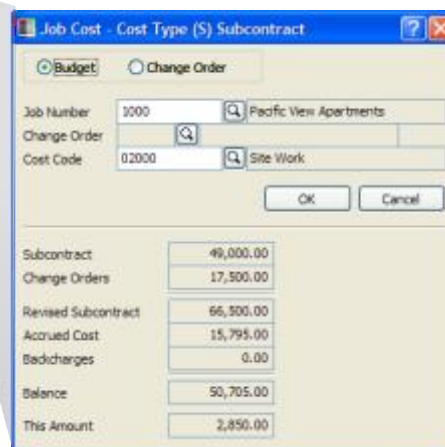

- Entries automatically update the Accounts Payable Journal, Vendor File, Vendor Ledger, 1099 File, General Ledger, Job Cost File, Subcontract File, Financial Statements, Purchase Order File, and Inventory File.
- Invoices can be distributed to as many different General Ledger accounts and Job Cost files as necessary.

Additional payees can be recorded for joint checks.

Calculates and tracks the retention for AP invoices.

Automatically deducts discount if payment is made on time.

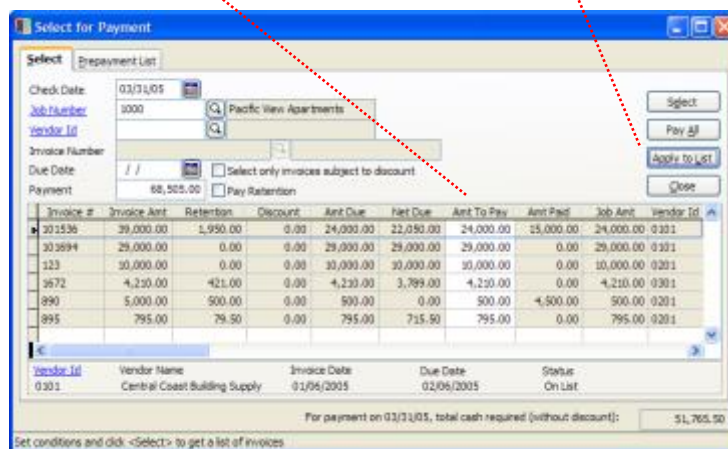

Invoices can be posted to as many general ledger accounts as necessary.

A pop-up Job Cost window allows each invoice item to be posted to a different job, change order and cost code.

- Retention tracking of accounts payable invoices.
- Allows for partial payments of invoices and tracks the amount paid to avoid duplicate payments.
- Updates Invoice from Purchase Orders.
- Purchase Order vouchers can be generated to help control the purchasing of new products and services.
- Evaluates future cash requirements.
- Allows instant look-up of unpaid invoices in selection for payment.
- Helps you take maximum advantage of credit accounts.
- Vendor numbers are user definable, and include up to ten alphanumeric characters, along with vendor names up to thirty eight characters.
- Twenty character invoice number.
- Automatically updates inventory on hand when payable invoice is entered.
- Select for Payment by Job, Vendor, Due Date, etc.

Invoices can be selected for total or partial payment. BIS prepares checks automatically.

Invoice payments remain on a prepayment list until you are ready to print checks.

Reports:

- Vendor Ledger - select by vendor, date, or invoice number.
- Accounts Payable Journal - activity by date; option to show invoice notes.
- Prepayment List - for cash demand requirements and review prior to printing checks.
- Vendor Payments - select by vendor, amount, check number, or date.
- Accounts Payable Aging Report - by vendor or job; option to display retention.
